

CHAPTER – 9

MACHINE MANUFACTURERS

The consequence of a decision to set up a Powerloom unit, the aspiring entrepreneur has to set his eyes on the technology for his product. Therefore, it is important to know the indigenous manufacturers of the textile machinery to choose a right type of machinery suiting to his needs. Government of India also gives financial support to the Powerloom units in SSI Sector (upto Rs.1.00 crores) in the form of subsidy under the TUF Scheme. Under the scheme of 20% CLCS, few machinery manufacturer are benchmarked which are listed under the scheme separately. Here we have given the list of machinery manufacturers without any prejudice towards anyone and not an iota of precedence or favour has been shown to anybody. Again this list does not confer any right to textile manufacturing unit or beneficiary under the scheme ipso-facto. The entrepreneurs are advised to take into account all facts about machinery manufacturers & their product before starting their units. It may also be possible that certain manufactures might have been left out of following list unknowingly, therefore entrepreneurs has to keep this in mind. For guidance, here are the details of indigenous machinery manufacturers for weaving & weaving preparatory.
