

P R E F A C E

The Compendium of International Textile Statistics - 2007, is the fifth in the series of Compendium of International Textile Statistics. This current issue covers international textiles data upto year ended 2005. The statistics in this publication have been compiled by collecting data from various reputed international organisations/publications, viz. WTO, ITMF, ICAC etc. and Textile Outlook International, Indian Jute, Fiber Organon, etc.

With the coming up of WTO regime and globalisation of economy and trade, the international data on textiles has assumed considerable importance and this publication is an attempt in that direction to provide at one place the international data on critical aspects of the industry and trade. I hope that like the previous issues this publication will be found useful by entrepreneurs, exporters, managers, planners and analysts and also by the govt., researchers, students and academic-institutions for comparative studies.

The Compendium has been prepared by the Economics and Statistics branch of this office under the overall supervision and guidance of Smt. Shashi Singh, Joint Textile Commissioner (Economics). The hard work put in by Shri S.V. Pakhare, Economic Officer, deserves special mention. Smt. Seema Surve , Shri Rakesh Purav and Ms. Sujata Dabhole of Computer Cell of the Economics and Statistics Branch of this office also deserve a word of praise for painstaking efforts in preparing the manuscripts.

Suggestions for improvement of the publication are welcome.
