13th December, 2006

## **M E S S A G E**

I am glad to know that with the avowed objective of providing vital information on textile industry, the Office of the Textile Commissioner has come out with the 15<sup>th</sup> edition of the “ Official Indian Textile Statistics” which provides comprehensive details on various segments of the textile industry. The Official Indian Textile Statistics also reflects on the brief review of the various sectors of the textile industry over the last decade.

2. In the changed global scenario the Indian textile industry has indeed carved out a unique but niche position for itself and is considered as the force to reckon with. The Official Indian Textile Statistics meticulously provides the basic input on the various sectors of the textile industry for the use of all the stakeholders of the industry viz., global investing community, first generation entrepreneurs, academicians, researchers & the policy makers thus facilitating them to arrive at the much informed business decisions based on reliable and authentic data contained there in the Official Indian Textile Statistics.

3. I am sure that all the stakeholders shall make utmost use of the data for their appropriate decision making relevant to their area of activity.
