**Minutes of the 21<sup>th</sup> meeting of the Internal Technical Committee under Amended Technology Up gradation Fund Scheme (ATUFS) held on 16.06.2021**

The 21<sup>th</sup> meeting of the Internal Technical Committee under Amended Technology Up-gradation Fund Scheme (ATUFS) was convened on 16.06.2021 at 11.00 Hrs. under the Chairmanship of Shri S.P.Verma, Joint Textile Commissioner (T) in the conference hall of the Office of the Textile Commissioner, Mumbai. The list of participants is attached as **Annexure-I**. The agenda points which were discussed and decisions taken thereof are as under:-

**Agenda No. 1:** Verification and recommendation of 19 proposals for enlistment of Machinery Manufacturers/ Authorized Agents under ATUFS as per Para no. of 3.4 of Revised Resolution of ATUFS dated 02.08.2018 and subsequent order No. 6/5/2015-TUFS dated 06.08.2019.

**Decision Taken:** The list of 19 proposals (Abroad - 3, Indigenous-16) received from Textile Machine Manufacturers/Authorized Agents for enlistment under ATUFS, were submitted before the Internal Technical Committee for its decision. In case of 13 indigenous machine manufactures out of 16 said indigenous machine manufacture, ITC has verified their activities and available infrastructure through video conferencing. The ITC, after detailed deliberations and referring to the made available documents, recommended 11 proposals (Abroad- 3 & Indigenous- 8 ) to the Textile Commissioner for her approval to upload the same in this office website (Attached herewith as **Annexure-II**).

**Agenda Point No. 2:** Powerloom Development Cell have vide note dt. 18/12/2020 submitted that details of price variation in basic price of imported looms in respect of 4 units (copy attached as **Annexure-III**) for taking necessary decision regarding genuineness of the individual machine cost of claimed machinery as directed by the competent authority.

The said matter was earlier discussed in the 7<sup>th</sup> ITC meeting held on 7/7/2020 wherein it was decided to keep the matter on hold for further clarification regarding variation of 50% in invoice value of the machine and having similar types of specifications.

**Decision Taken in the 15<sup>th</sup> ITC meeting held on 5/1/2020:** Matter was further placed before the 15<sup>th</sup> ITC for decision with some more details. The Committee felt that the available data is not sufficient to take a view in the matter. As such, it was decided to take data of variation in basic price of similar machinery having same specification in respect from applications for subsidy received from both Powerloom Development Cell and TUFS Cell and same may be placed during the next meeting of the ITC to decide the issue.

Both PDC and TUFs Cell have now vide Note dt. 11/06/2021 has submitted the data as required by ITC. Accordingly the same is placed before the committee for taking a decision in the matter, which is attached as **Annexure-IV** for reference.

**Decision Taken:** On the basis of the details submitted before the Committee as per Annexure-IV, the Committee observed that JIT, RO, Ahmedabad have recommended to restrict the price for subsidy purpose upto USD 9000 per rapier loom, which also has been accepted by the unit viz. M/s Shree Shiv Shakti Textiles, Surat (case listed at Sr. no. 4 of Annexure-IV) in writing for which the invoice value was USD 21000. Based on said opinion and acceptance of unit, the Committee felt that the cost of per loom should be taken as USD 9000 in case of M/s Shree Shiv Shakti Textiles, Surat. In case of remaining three cases listed at Sr. no. 1, 2 and 5 of the Annexure-IV, the section should calculate the cost of each rapier looms for increase/ decrease of 10 cm width of loom from basic fixed value of USD 9000 subject to meeting the other eligibility criteria as per guidelines in-force for RRTUFS.

In case of M/s R. Fab, Surat, (case listed at Sr. no. 3 of Annexure-IV) since it is waterjet loom, the committee based on price range observed in ATUFS and MMS cases, has recommended that cost of waterjet loom under reference may be taken as USD 16,000 for purpose of payment of subsidy.

**Agenda Point No. 3 :** Application received from M/s, Global Emb-tech Pte Ltd., Japan for enlistment of their unit as authorized agent of M/s. Tajima Industries Ltd., Japan under ATUFS.

M/s. Tokai Industrial Sewing Machine Co. Ltd., Japan are the manufacturers of 'Tajima' brand embroidery machine and they are already enlisted as Machinery manufacturers at Sr. No. 12 Annexure - IV under ATUFS. M/s. Tajima Industries Ltd., Japan is a 100% sales office for selling the 'Tajima' brand embroidery machine in worldwide market and both M/s. Tokai Industrial Sewing Machine Co. Ltd., Japan and M/s. Tajima industries Ltd., Japan are subsidiary companies. However, at the time of enlistment of these companies there was no provision for enlistment of subsidiary companies, as such M/s. Tajima Industries Ltd., has been enlisted as an authorised agent of M/s. Tokia Industrial Sewing Machine Company at Sr.No. 16 Annexure-III of indicative machine manufacturer list.

M/s. Tokai Industrial Sewing Machine Co. Ltd., Japan had also submitted an MOU between M/s. Tajima Industries Ltd., Japan and M/s. Global Emb-tech Pte Ltd, Singapore with a request to register M/s. Global Emb-tech Pte Ltd, Singapore as the authorized agent of M/s. Tajima Industries Ltd., Japan. The request was not acceded to by this office as M/s. Tajima Industries

3

Ltd, Japan is itself registered as an authorized agent of M/s. Tokai Industrial Sewing Machine Co. Ltd., Japan under ATUFS.

Now M/s. Global Emb-tech Pte Ltd, Singapore, have once again requested this office to register their name as authorized agent of M/s. Tajima Industries Ltd., Japan.

**Decision Taken in the 17<sup>th</sup> ITC meeting held on 17-02-2021** : The Committee noted that as M/s. Tajima Industries Ltd., had informed this office that both Tokai Industrial Sewing Machine Co. Ltd., Japan and M/s. Tajima Industries Ltd are owned by Mr Hitoshi Tajima and M/s. Tajima Industries Ltd is 100% authorised sales office for selling Tajima brand embroidery machine in domestic and worldwide market and there is trade agreement signed between the two companies. However, due to the requirement of MOU by GOI they are submitting an MOU wherein it is clearly stated that the machines will not be supplied / sold on commission basis.

Accordingly, the Committee decided to call for documentary / legal proof like balance sheet or annual report etc. wherein it can be ascertained that the both the units i.e M/s. Tokai Industrial Sewing Machine Co. Ltd. and M/s. Tajima Industries Ltd are subsidiary units

Now M/s. TISM Co., Ltd., Japan previously known as M/s. Tokai Industrial Sewing Machine Co. Ltd., Japan have submitted a letter stating that M/s TISM Co., Ltd is a subsidiary company of M/s. Tajima Industries Ltd and manufacture OEM for brand Tajima only. Further, they have submitted a letter from Mr. Motoyoshi Oshima a Licensed Certified Public Accountant in Osima Katsumi Accounting Office, Japan under Japan Registrar of Companies endorsing the above said letter.

**Decision Taken:** The Committee observed that M/s. Tokia Industrial Sewing Machine Ltd, Japan is the machine manufacturer and M/s. Tajima Indust is the subsidiary unit of M/s Tokia Industiral Sewing Machine Limited. As per guideline authorized agent may be enlisted of the machine manufacturer on receipt of the request from the manufacturer alongwith original copy of MoU signed between both the Parties. In the instant case, M/s. Global Emb-tech Pte Ltd may be considered if M/s. Tajima Industries Ltd., Japan shall authorize M/s. Global Emb-tech Pte Ltd, Singapore as their authorized agent and not by M/s Tokai Industrial Sewing Machine Co. Ltd., Japan.

**Agenda Point No. 4** : M/s. Karl Mayer Stoll Textilmaschinefabrik Gmbh, Germany have informed this office that as part of the merger of the STOLL brand with the Karl Mayer Group of Companies w.e.f. 1<sup>st</sup> July 2020, the machines which were in stock with H.Stoll AG & Co KG, with the name plate of Stoll Knitting Machine (Shanghai) Co Ltd were taken over by them. They

have further informed that the machines supplied to their customer M/s. Turbo Tools Private Ltd., Ludhiana were from the above stock of machines.

M/s. Karl Mayer Stoll Textilmaschinefabrik Gmbh, Germany has requested to recognize the above sales / supply to M/s. Turbo Tools Private Ltd., Ludhiana under ATUFS.

**Decision Taken:** After due deliberations in the matter, the Committee decided that such matter can be decided on case to case basis on the basis of position reported by the JIT under ATUFS. The JIT may consider machine plates of M/s. Stoll Knitting Machine (Shanghai) Co Ltd, China raised by M/s. Karl Mayer Stoll Textilmaschinefabrik Gmbh, Germany, instead of rejecting outright and send the same to ATUFS Cell for final opinion. ATUFS cell, if desire, may submit details of JIT before the ITC in future for clarification, if any.

**Agenda Point No. 5 :** R.O.Noida have vide letter dt. 8/6/2021 informed that M/s. Gold Stone International, Haryana has supplied machinery to two units and raised invoice with GST. However, in the JIT report two invoices are enclosed which implies that M/s. Gold Stone International, Haryana has purchased / imported the machines from M/s. Zhejaing Fengfan Numerical Control Machinery Co., China. Prima facie from the documents it appears that M/s. Gold Stone International, Haryana is a stockiest. R.O.Noida has requested for advice regarding the course of action to be taken for such cases.

**Decision Taken:** The Committee Opined that such sales cannot be allowed as it will treated as second sale similar to High Sea Sale.

**Agenda No. 6 :** Addition of "FILAMENT YARN SIZING MACHINE" in Technical Textiles eligible machine list Of Amended TUF scheme (ATUFS).

M/s. Haren Textiles Pvt. Ltd., Mumbai has requested to include "FILAMENT YARN SIZING MACHINE" in Technical Textiles eligible machine list Of Amended TUF scheme (ATUFS).

As per their detailed letter reg. above subject they are targeting to manufacture following high end technical textiles fabrics:-

- 1) Light weight Parachute Fabrics
- 2) Coated Fabrics for Ponchos
- 3) Bullet Proof Fabrics made from Codura yarns
- 4) Rucksack fabrics

- 1, 12 8
- 5) NBC Suit Fabrics
  - 6) Tent Fabrics
  - 7) Ultra-light weight extremely cold weather fabrics

Thus, Unit has decided to procure High End Filament Sizing Machine from very renowned textile machines supplier "TSUDAKOMA Corp, Japan". This machine is 3 tire machines which include:-

- 1) Creel + Warper
- 2) Sizing + Supply Stand
- 3) Beamer

Process flow will be as follows:-

1. The yarn shall go on to the creel and a Jumbo Beam will be made.
2. The Jumbo Beam will be sized and smaller beamer beams will be made.
3. A collection of beamer beams will be put together on the beamer machine to make one Weavers beam which will go onto the loom.

Thus, this machine is single machine and collectively performing various activities and it called "FILAMENT YARN SIZING MACHINE".

This machine is only for high end fabrics and that's why and it is unique in India and that's the reason it is being not listed in ATUFs eligible machine list.

The matter was placed in the 20<sup>th</sup> ITC held on 14/6/2021 and the decision taken is reproduced below :

**Decision Taken in the 20<sup>th</sup> ITC Meeting:** After due deliberation the Committee decided that a Declaration can be taken from the Unit stating that the "FILAMENT YARN SIZING MACHINE" will be used for manufacture of only Technical Textiles and not for any other Textile Items. Details of the specifications where it differs from other FILAMENT YARN SIZING MACHINE may also be called for from the unit.

Now M/s. Haren Textiles Pvt. Ltd has submitted a clarification as per decision of 20<sup>th</sup> ITC that the machine which they are procuring from M/s. Tsudakoma Japan is only for high tenacity yarn used for high end fabric like Defense fabric, parachute etc. and the machine has high precision controls and vector motors which enables them to use the following yarns:-

1. 20d Nylon 6 and nylon 66 for outwear down jackets and sleeping bags for extreme cold climate.
2. 30d nylon 66 for parachute fabrics.
3. 40d nylon 66 also for high altitude sleeping bags.

191 8

M/s. Haren Textiles Pvt. Ltd. also clarified that the machine procured from Tsudakoma Japan permits usages of yarns as low as 7d as well.

Furthermore M/s. Haren Textiles Pvt. Ltd. submitted an undertaking that "Filament Yarn Sizing Machine" will be used for manufacture of only Technical Textiles and not for any other Textiles Items.

**Decision Taken :** After due deliberations, the Committee decided that "**FILAMENT YARN SIZING MACHINE**" can be included as eligible machine under MC-3 of ATUFS, since it is used for manufacture of only Technical Textiles items and not for any other Textile Items since as declared and undertaking submitted by M/s. Haren Textiles Pvt. Ltd. that filament yarns from 7 denier to 40 denier of Nylon 6 and Nylon 66 will only be processed on these machines, which are high tenacity industrial yarns and can be used for high end use of for manufacturing the fabrics which is to be used for various technical textiles applications/ products. The description of machine may be kept as, PLC controlled Filament yarns of 7 D to 40 D of Nylon 6 and Nylon 66 sizing machine having minimum 5 cylinders and machine speed of 500 mts/min.
