

Minutes of the 25th meeting of the Internal Technical Committee under Amended Technology Up gradation Fund Scheme (ATUFS) held on 26.08.2021

The 25th meeting of the Internal Technical Committee (ITC) under Amended Technology Up-gradation Fund Scheme (ATUFS) was convened on 26.08.2021 from 11.30 A.M. under the Chairmanship of Shri S. P. Verma, Joint Textile Commissioner (T) in the conference hall of the Office of the Textile Commissioner, Mumbai. The list of participants is attached as Annexure-I. The agenda points which were discussed and decisions taken thereof are as under:-

Agenda No.1: Verification and recommendation of 17 proposals for enlistment of Machinery Manufacturers/ Authorized Agents under ATUFS as per Para no. of 3.4 of Revised Resolution of ATUFS dated 02.08.2018 and subsequent order No. 6/5/2015-TUFS dated 06.08.2019

Decision Taken : The list of 17 proposals (Abroad - 11, Indigenous – 6) received from Textile Machine Manufacturers/Authorized Agents for enlistment under ATUFS, were scrutinized by the Internal Technical Committee. Out of the said 17 proposals, 11 proposals (Abroad- 10 & Indigenous- 1) were recommended to the Textile Commissioner for her approval to upload the same on website of the Textile Commissioners Office (Attached herewith as Annexure-II). In respect of 1 (One) indigenous unit, it was decided to verify their manufacturing capability through video conferencing, and for the other four indigenous units, it was decided to call for clarifications / documents. The application of one aboard unit was not recommended for enlistment.

→ **Agenda Point No. 2: Consideration of Logo of Manufacturer found on machine plate in the absence of name of machine manufacturer.**

In the 15th TAMC meeting it was decided that in absence of manufacturer name on the Consideration of Logo and name of the brand found on machine plate in absence of name of machine manufacturer under ATUFS machine and only the logo of manufacture is found on machine plate, the manufacturer should submit a note detailing their branding exercise, marketing practices and share their authentic logo. The Internal Technical Committee (ITC) may then take a view on a case to case basis considering the explanation submitted by the manufacturer. Accordingly, R.O.Amritsar and TUFS Cell have forwarded the following cases for a decision of ITC in the matter.

1. Case forwarded by M/s. R.O.Amritsar.

M/s. Tony Engineering, Tirupur have supplied soft flow dyeing machine to M/s. Eakta Dyeing and Finishing House, Ludhiana wherein the name of the manufacture is not mentioned on machine name plate, however the brand name 'TONYSS' is mentioned on

NCU

126

the plate. Now R.O.Amritsar have vide letter dt. 9/8/2021 forwarded the documents received from M/s. Tony Engineering, Tirupur.

Decision Taken: The committee examined the documents submitted by R.O.Amritsar and also visited the website of M/s. Tony Engineering, Tirupur to verify their logo. After detailed scrutiny, it was found that there is a difference in the logo on the name plate of the machine / website and in the invoice cum delivery challan. Accordingly, the committee decided to call for the reason for such difference in the logo from M/s. Tony Engineering, Tirupur.

2. Cases forwarded by TUFs Cell.

- a) M/s. Shaktigarh Textile and Industries Ltd. have purchased Shuttleless Rapier Looms from M/s. Shyyuan Industry Co. Ltd., China. From the photographs submitted alongwith the JIT report it is observed that the machine manufacturers name is not appearing on the nameplate. However a brand logo of 'Adelphi' is mentioned in the name plate. In this context TUFs Cell have forwarded the submission of M/s. Shyyuan Industry Co. Ltd., China regarding supply of Adelphi Brand Automatic Shuttleless Rapier Looms.

Decision Taken: The committee found through secondary data sources available on website that 'Adelphi' is a registered trademark of Adelphi Group (copy enclosed as Annexure III). Hence, it cannot be the logo of a Chinese company M/s. Shyyuan Industry Co. Ltd., China and as such the committee has not considered the case.

- b) M/s. Piyush Polytex Industries Pvt. Ltd., have purchased various Textile Manufacturing Machinery from M/s. Wenzhou Allwell Machinery Share Co. Ltd., China. From the photographs submitted alongwith the JIT report it is observed that only the name of the authorised agent (M/s. Zhejian Allwell Trade Co. Ltd., China) along with logo of the machine manufacturer is appearing on the machine name plate. TUFs Cell has forwarded the submission of M/s. Wenzhou Allwell Machinery Share Co. Ltd., China regarding supply of **OYANG 欧阳** Brand machinery.

San

Decision Taken: From the photographs submitted by TUFs Cell, the committee observed that the name of Authorised Agent was found on the machine Name Plate in place of machinery manufacturers, which is not permitted under ATUFS. As such the committee did not consider the case.

Agenda Point No. 3: Consideration of change in the Model Number inscribed on machine name plate and other related documents

In the 19th TAMC meeting it was decided that for a change in model no. in invoice / JIT Report / machine plate, every case has to be placed before ITC for examination and further recommendation to TAMC for decision in line of Logo/Brand. Accordingly, TUFs Cell has forwarded a case wherein the model number of the machine is mentioned as A9500 Model P in the commercial invoice and as A9500 on the name plate of the machine. TUFs Cell has also forwarded a letter from the machinery manufacturer requesting to consider A9500 Model P and A9500 as the same.

Decision Taken: The Committee noted that the difference in the model number is very minor and as the machines was purchased from M/s. IteMa S.p.a, a world renowned manufacturer of textile machinery manufacturer, the Committee accepted the request of the manufacturer to consider A9500 Model P and A9500 the same as there may not be any change in machine specification. The ATUFS Cell may accordingly consider claim subject to fulfillment of other eligibility criteria as specified in ATUFS guidelines.

→ **Agenda Point No. 4: Representation received from M/s. Andritz Kuesters GmbH, Germany for inclusion of PLC Controlled calendaring machine for SSMMS Non-Woven Line.**

The PLC Controlled calendaring machine having thermoplast / duraplast / polyamide sleeve is appearing under MC-2-63 i.e machinery for processing of fibre/yarn/fabric. It is also appearing as PLC operated system with servo drives for measurement / control of tension and temperature Film calendaring machine under MC-3-H-4 i.e. machinery for manufacturing of Technical Textiles (finishing machines). However, the manufacture wants his machine to be covered under MC-3-E i.e. Machinery for manufacturing of Technical Textiles (Processing).

Decision Taken: The committee examined the matter in detail and decided to call for the clarification from M/s. Andritz Kuesters GmbH, Germany as to how their machine is technically different from the machine already covered under TUFs.

Agenda Point No. 5: Case forwarded by R.O. Ahmadabad.

R.O. Ahmadabad has forwarded the case of the unit whose claim has been processed for final settlement of claim after release of eligible amount against Bank Guarantee as per circular dt.

Nca

128
28/05/2020. It is observed, that in the commercial invoice and other shipping documents submitted by the unit, the name of the supplier is indicated as 'Quanzhou Baiyuan Machinery Science and Technology Co. Ltd.,' The same name is enlisted under ATUFS, Annexure-III at Sr.No. 140. Whereas, on the machine name plate, the name of the manufacturer / supplier is mentioned as 'Baiyuan Machinery Science and Technology Co. Ltd'. R.O. Ahmadabad has forwarded a letter from the Machinery Manufacturer clarifying that the word "Quanzhou" in the name of the supplier is representing their province (district) and they are bound to add their province name before the original name of firm to promote their province name at international level as per the Article 9 of the State Administration for Industry and Commerce, People's Republic of China. They have also submitted an extract of Measures for the implementation of administration of enterprise name registration.

Decision Taken: The committee has gone through the documents submitted by the OIC RO Ahmadabad as well as referred the website of the machine manufacturer. From all these details it has been noticed that brand logo indicated on the documents as well as on the website of the company and name and address of the manufacturer are matching, except the name of province i.e. Quanzhou" which is not indicated on machine plate only. The Committee is of the opinion that it might have happened due to long name of the manufacturer. Since, all other details including logo are tallying, hence as a special case the Committee has recommended to TAMC for allowing this case for subsidy under ATUFS and also requested the TMB Section to issue directive to the machinery manufacturer to indicate their complete name as enlisted under ATUFS in all machine to be supplied in future.

Agenda Point No. 6: Representation received from M/s. Gujtex Engineering Company, Gujarat.

M/s. Gujtex Engineering Company, Gujarat, has applied for enlistment under ATUFS as a manufacturer of PLC Based Husk / Oil / Gas Fired Boiler with Automatic Control on combustion Efficiency vide their letter dt. 21/08/2018. On scrutiny of the documents submitted, TUFS Cell has vide letter dt. 8/1/2019 requested the unit to submit a revised undertaking as the description of the machine was not as per ATUFS Circular. The unit has vide letter dt. 22/1/2019 submitted the revised undertaking but without mentioning the per annum capacity to manufacture the machines. Accordingly, TUFS Cell has once again vide letter dt. 13/5/2021 requested the unit to submit the undertaking with the per annum capacity to manufacture the machine. The unit has re-submitted the correct undertaking vide their letter dt. 12/10/2020. On receipt of the undertaking the application of the unit was placed in the 12th ITC meeting held on 5/11/2020 wherein the committee decided to call for Technical Literature for manufacturing the Boiler as the unit had only submitted a machinery catalogue. Accordingly this section has vide email dt. 25/1/2021 called for the Technical Literature for the Boilers manufactured by unit, as they had only submitted machinery catalogue. In reply M/s. Gujtex Engineering Company, Gujarat has vide

Na

email dt. 17/2/2021 resubmitted a Xerox copy of the same machinery catalogue submitted by them earlier.

Thereafter, the matter was once again placed before the 19th ITC in its meeting held on 25/03/2021, wherein the committee decided to not recommend their enlistment under ATUFS as they are not manufacturing proper Industrial Boiler.

The unit has now represented to this office, and requested a reply to the following questions;

1. What is the definition of proper industrial boiler according to Annexure MC-2 Sr. No. 73
2. How can the expert team reject their application without any personal visit / spot verification etc?
3. Some of their competitors manufacturing the same products are already enlisted under ATUFS.

They have further requested this office to depute a technical team to visit their factory and see their manufacturing activity, as well as the quality of their product.

Decision Taken: The committee noted that the Boiler mentioned at Annexure MC-2 Sr. No. 73 is PLC controlled Husk/Oil/Gas fired boiler (Steam/ Thermic fluid) with automatic control on combustion efficiency, O2 Monitoring Equipments, and with Electrostatic precipitator and Micro dust collector. In the instant case there was no mention of O2 Monitoring Equipments, and with Electrostatic precipitator and Micro dust collector in the Technical Literature of the Boilers submitted by M/s. Gujtex Engineering Company, Gujarat. Moreover, PLC panel also could not be observed in the picture of the machine shown in the Technical Literature submitted by them. Therefore, the Committee had in its 12th meeting held on 5/11/2020 decided to call for proper Technical Literature for the Boiler from the manufacturer, but the unit has once again submitted a zerox copy of the same document, submitted by them earlier. As from the documents submitted by M/s. Gujtex Engineering Company, the Boiler manufactured by them was concluded without PLC control, O2 Monitoring Equipments, Electrostatic precipitator and Micro dust collector. Hence, the committee did not consider their request to enlist as they were not manufacturing benchmarked technology machinery as specified in ATUFS. If they are manufacturing the boiler having said specification, the unit may re-submit their application for re-consideration supported with proper technical literature.

As regard to names shown as competition, the committee decided to review the technical level and the specification of the boilers being supplied by them during next ITC meeting.

Agenda Point No. 7 : Representation received from M/s. Menzel Engineering India Pvt. Ltd., Palghar, Maharashtra.

129
130

M/s. Menzel Engineering India Pvt. Ltd., Mumbai is enlisted at Sr.No.18 in Annexure-V. The unit has vide letter dt. 26/2/2021 requested this office to enlist their manufacturing units at Ahmedabad and Bhilad. They had submitted Balance sheet for the year 2019-20 & GST Registration Certificate for considering the units at Ahmedabad and Bhilad as subsidiary units. The matter was placed in the 19th ITC meeting held on 25-03-2021, wherein the committee decided to call for documentary proof for the manufacturing activity in Ahmedabad and Bhilad. Accordingly this office had called for the documentary proof from the unit. The unit has vide letter dt. 21/7/2021 submitted the GST Certificates, Udyam Registration Certificate and Factory license of their Ahmadabad and Bhilad manufacturing units' along with Pan Card of Menzel Engineering India Pvt. Ltd. The matter was once again taken up in the 24th ITC meeting held on 12.08.2021, wherein the committee once again decided to call for additional details for linking of the subsidiary and parent units.

Now the units has represented that as per the guidelines issued by the Central Board of Excise and Customs (CBEC) with regard to Tax invoice and other such instruments under GST :-

- Under GST, a tax invoice is an important document. It not only evidences the supply of goods and services, but is also an essential document for the recipient to avail Input Tax Credit (ITC). A registered person cannot avail ITC unless he is in possession of a tax invoice or a debit note.
- GST is chargeable at the time of supply. Invoice is an important indicator of the time of supply. Broadly speaking, the time of supply of goods or services is the date of issuance of an invoice or receipt of payment, whichever is earlier.
- Thus, the importance of an invoice under GST cannot be over-emphasised. Suffice it to say, the tax invoice is the primary document evidencing the supply and vital for availing Input Tax Credit.

They have further stated that each company is allotted a single PAN number by the Income Tax Department and based on this PAN number, the Goods and Services Tax Department issues GST registration certificate depending on various locations of the company, as the machines are manufactured and dispatched from the factory and not from office. Accordingly, they have submitted a screen shot of PAN based search on the GST portal which shows unit in both Gujarat and Maharashtra. They have also submitted a screen shot of their IEC profile as available on the DGFT portal which shows their branch offices in Kathwada, Ahmedabad and Bhilad.

★ **Decision Taken:** The committee scrutinized the documents now submitted by M/s. Menzel Engineering India Pvt. Ltd., Mumbai, which includes an Udyam Registration Certificate, duly incorporating their manufacturing units at Ahmedabad, Bhilad and Vasai. Based on the said Registration Certificate the committee considered their request for enlisting their manufacturing activities at Bhilad and Ahmedabad. Accordingly, the necessary changes to

Na

131

be made in Annexure V, Sr. No 18 as M/s. Menzel Engineering India Pvt. Ltd., Vasai (Regd Office) and their manufacturing units at Bhilad and Ahmedabad.

Additional Agenda Point No. 1: Consideration of Logo of Manufacturer found on machine plate in the absence of name of machine manufacturer under.

In the 15th TAMC meeting it was decided that in absence of manufacturer name on the Consideration of Logo and name of the brand found on machine plate in absence of name of machine manufacturer under ATUFS machine and only the logo of manufacture is found on machine plate, the manufacturer should submit a note detailing their branding exercise, marketing practices and share their authentic logo. The internal Technical Committee (ITC) may then take a view on a case to case basis considering the explanation submitted by the manufacturer. Accordingly, R.O. Noida has forwarded the case of M/s. Unitop Aquacare limited who has supplied one Multiple Stage Prefabricated Steel Evaporator to M/s. B. I. Fabrics, Pali wherein the name of the manufacture is not mentioned on machine name plate. It only bears the logo of the manufacturer. The same logo also appears on the Invoice.

Letter
→ **Decision Taken: The committee has gone through the documents submitted by the OIC RO Noida and also as referred to the website of M/s. Unitop Aquacare. It was observed that the logo of the company on its website and the logo appearing on the machine name plate as well as on the invoice is the same. Accordingly, the committee has taken the view that R.O. may consider the case subject to other eligibility criteria under ATUFS.**

Additional Agenda No. 2: Proposal for reconsidering the provision in ATUFS guidelines for enlistment of accessories / Spares manufacturers and its authorized agents:

In the said matter, earlier in the 4th IMSC dated 24.10.2019, under Agenda No.5, it was decided that :-

- (i) Accessories/spares procured from/through enlisted OEM (domestic as well as foreign) are exempted from the requirement of enlistment of manufacturers of such accessories / spares.
- (ii) Feedback to be taken from various clusters for formulating a detailed procedure to be followed for enlistment of accessories/spares manufacturers.

In the above regard, TMB section has directed to all the Regional Offices of the Textile Commissioner to provide the feedback for formulation of the procedure to be followed for the enlistment of accessories/spares manufacturers under ATUFS based on the decision of the 4th IMSC.

In this connection, it is submitted that reply / feedback has not been received from the concerned Industry / Textile Associations / cluster representatives due to the prevailing pandemic situation in the country.

Ka

However, the process for enlistment of accessories/spares manufactures under ATUFS is intricate / detailed, as the accessories/spares manufacturers being exhaustive in number in their respective manufacturing field / segment, so in order to enlist them it would be time consuming besides taking into consideration the issue of aligning them with the OEM.

Meanwhile, an application has received from the M/s Semyung Electric Machinery Co. Ltd., Korea for enlisting under ATUFS as an accessory manufacturer of sectional beam for warp knitting machines. In this context, it is suggested that the same procedure/guidelines for enlistment of machinery manufacturers can be adopted for the accessories manufacturers also, if requisition received from such units.

As such the request of M/s Semyung Electric Machinery Co. Ltd., Korea as an accessory manufacturer may be placed before TAMC for the approval for enlistment of accessory manufacturer under ATUFS and followed the similar mechanism for enlistment of OEM shall be adopted.

Decision Taken: As the matter regarding enlisting of Accessories Manufacturer is to be taken up for discussion in the next IMSC meeting, the committee decided to wait for the decision of IMSC in the matter.

Additional Agenda No. 3: In view of the representation received from Federations / Associations for allowing machinery with Agent's Name plate instead of Manufacturers Name plate. The matter regarding enlisting of authorized agents was taken up for discussion with the permission of the chair.

Decision Taken: After due deliberation in the matter, it was decided that ITC should not enlist any Authorized Agents of Machinery Manufacturers until a clear guideline in the matter is received from TAMC.
