Ahmadabad regarding the variation in the price of Air Texturising machine with slight variation in technical specification purchased by M/s. Shree Dadaji Textiles, Surat from M/s. Himson Engineering Pvt. Ltd., Daman. On inquiry M/s. Himson Engineering Pvt. Ltd., Daman has informed that the price difference is due to the machines being supplied with or without special imported fancy attachments like Herberlin Make Ceramic D-11 series with Brass Jet Housing, Imported Air Slub (O jet) Attachment with FESTO Make Germany solenoid Valve 3 and individual valve for water applicator.

The explanation of the unit is not acceptable to the R.O. Ahmadabad and they have requested to take up this matter with ITC

Decision Taken in 32nd ITC: For the same machine model number price variation of more than 50% is noticed, which is not justifiable merely based on installation or use of some special arrangements parts, as declared by the machine manufacturer. As such the committee decided to call for the per unit rate of the 3 special attachments / arrangements made on the machines, so that the difference in the cost of machines of similar models of same manufacture can be ascertained by the committee.

Decision taken in 33rd ITC Meeting: The committee arranged for a webex meeting with Shri Darshan Bachkaniwala, Managing Director M/s Himson Engineering Pvt Ltd, Daman who has informed that in addition to the attachment cost, they have incurred cost for the R&D work done for installing the following three special attachments namely Herberlin Make Ceramic D-11 series with Brass jet Housing, Imported Air Slub (O-jet) Attachment with FESTO Make Germany solenoid valve 3 and individual valve for water applicator made on the Air Texturising machine, so as to bring the technology of their Air Texturising machine at par with those being imported from Japan. As such the Committee has requested him to submit the cost break-up of the attachments including the R&D cost. He was also requested to inform the cost of similar machines being manufactured by other foreign companies.

In lieu of above M/s Himson Engineering Pvt Ltd has submitted the details vide Email dated 30.12.2021,

- Herberlin Make Ceramic D-11 series with Brass jet Housing @ 38000/- INR
- Imported Air Slub (O-jet) Attachment with FESTO Make Germany solenoid valve @36500 INR
- individual valve for water applicator @1250 INR

In addition Competitor M/s AIKI Riotech Corporation, Japan sells at 195000-210000 INR.

Decision: After detailed discussion, the committee deferred the case for further verification/comparison of specifications in invoices raised by M/s Himson Engineering to M/s Shree Dadaji Textiles and other units who have been supplied the Air Texturising machine without these attachments.

2. TUFs Cell has email dt. 01/02/22 forwarded copy of note dt. 01/02/22 received from R.O. Ahmadabad regarding justification of price variation for same model Rapier looms with same specifications by M/s Shandong Rifa Textile Machinery Co. Ltd.
