MINUTES OF THE 2<sup>nd</sup> MEETING OF THE TECHNICAL ADVISORY AND MONITORING COMMITTEE (TAMC) UNDER A-TUFS HELD ON 14/03/2016 AT OFFICE OF THE TEXTILE COMMISSIONER, MUMBAI-20

The 2<sup>nd</sup> meeting of the TAMC under A-TUFS was held under the Chairpersonship of Dr. Kavita Gupta, IAS, Textile Commissioner on 14/03/2016 at 3.00 PM in the Conference Room of the Office of the Textile Commissioner, Mumbai. A list of participants is enclosed at Annexure-I

2. At the outset, the Textile Commissioner welcomed all the participants and informed the members that initial discussion was already held in the last meeting held on 07/03/2016 and it was impressed upon that a comprehensive list of machinery including energy saving machines may be prepared and sent to this office well in advance along with comments for addition and deletion, if any, to be considered under A-TUFS. In this regard, the list of machineries and comments thereof are received from various Associations/organizations. It was clarified that the technology necessarily should have an element of upgradation for it to be included in the eligible list of machinery. This would also mean that the list is dynamic and therefore it is not necessary that machinery which were eligible earlier will also remain eligible for all times to come

**Agenda: To finalise the list of eligible machineries under Amended TUFS and to identify/finalise the list of energy saving machinery /devices and equipments.**

3. The list of machineries and comments thereof received from various Associations/organizations were discussed at length and after deliberation, a list of machinery to be included under A-TUFS has been drawn for following segments:

- a) MC-1 - Weaving, Weaving Preparatory and Knitting
- b) MC-2 - Processing of fibres, yarns, fabrics, garments and madeups.
- c) MC-3 - Technical Textiles
- d) MC-4 - Garment/madeup manufacturing

4. For Silk segments, Central Silk Board has submitted a list of machinery but they have not mentioned specifications of certain machines and for some machine they have provided very elaborative specifications which could not be included in the machine list. Hence, the Chairperson has directed them to submit the revised list of machineries along with suitable specification for inclusion under A-TUFS.

5. For Handlooms segment, Office of the DC Handlooms has provided a short list of machineries for inclusion. However clarification in this regard was sought from DC Handlooms for inclusion of these machineries along with existing machine list under RRTUFS or not.

  
21/3/16

6. For Jute Segment, Office of the Jute Commissioner had been requested repeatedly to submit the list of machines to be included under A TUFs. However so far office of the Textile Commissioner has not received the machinery list from Office of the Jute Commissioner.

**Additional Agenda: Clarification on GR on A TUFs**

7. Further, some of the members requested clarification on the guidelines of A TUFs. The discussion and decision taken by the committee are given below:

- a) Some members informed that as per Para 4.1.2 of GR on ATUFs i.e. "Existing units and new units will be eligible for subsidy within the overall ceiling fixed for an individual entity. However, in case the entity has availed subsidy under RRTUFs, it will be eligible for only the balance amount within the overall ceiling fixed for an individual entity". Members requested to clarify that whether both Capital subsidy and Interest reimbursement or only Capital subsidy has to be considered for calculating the subsidy already availed under RR TUFs. In this regard it is clarified that both Capital and Interest reimbursement subsidy pre-authorised under UID issued to the unit under RR TUFs has to be considered while determining the overall ceiling fixed for an individual entity.
- b) Some members informed that as per para 4.2.2. of GR on A TUFs i.e. Accessories / attachments / sample machines / spares received along with the machinery upto a value of 20% of the machinery cost eligible under ATUFs will also be eligible. However many machinery manufacturers are not manufacturing all the accessories/attachment/spares for their machines. As such they requested to modify the para as given below:

"Accessories / attachments / sample machines / spares which form the project and purchased for the machinery procured under the project upto a value of 20% of the machinery cost eligible under ATUFs will also be eligible".

The Chairperson clarified that being a policy matter, it is required to be approved by the Inter Ministerial Steering Committee (IMSC). The Committee, therefore, has recommended for consideration of modification of para no. 4.2.2. of GR on A TUFs as given above.

- c) Some members informed that at para 5.1.2 of of GR on A TUFs, it is mentioned "Since

  
21/2/16

the Scheme is credit linked, the entrepreneur will be required to keep the term loan component of machinery at a minimum of 50% of the total project cost, to become eligible under the scheme". The Committee was of the opinion that this provision may create problem for Readymade Garment units in which the machinery cost are low in the project (approximately 35 to 40%) when compared to the total project cost. The Chairperson clarified that being a policy matter, it is required to be approved by the Inter Ministerial Steering Committee (IMSC). The Committee, therefore, has recommended for consideration of modification of this para as given below:

"Since the Scheme is credit linked, the entrepreneur will be required to keep the term loan component at a minimum of 50% of the total project cost, to become eligible under the scheme".

8. Since there was no other agenda the meeting ended with vote of thanks to the Chair.
